WEBMINAR “RESPONSES TO COVID-19 PANDEMIC SITUATION FROM ECA AGENCIES”

Considering the current situation of the Covid-19 pandemic, ECA wants to promote the dialogue among its members and to share the responses to this situation. For this, ECA has organized two webinars. The first one will be focused on two challenges most agencies are facing: The need to shift to online external QA procedures and the role some agencies are taking to support HEIs in their adaptation to remote virtual learning. In addition to the presentation of examples of how some agencies are dealing with the above topics, EQAR will provide its view on the adaptation of external QA procedures. This webinar will provide the participants the opportunity to share experiences regarding the responses to the current situation and to discuss about the challenges faces.
