MOOCs and External Quality Assurance

11th December 2013

European consortium for accreditation

nvao

nederlands - vlaamse accreditatieorganisatie

Programme

| Chair: Lucien Bollaert, Executive Board member of NVAO | |
|---|---|
| 13:00 | Welcome and introduction by Anne Flierman , Chair of NVAO |
| 13:10 | 'MOOCs: a paradigm shift in learning and quality assurance?' by Sir John Daniel , former President & CEO of Commonwealth of Learning and Stamenka Uvalic-Trumbic , consultant of Commonwealth of Learning |
| 14:00 | 'MOOCs and internal quality assurance' by Timo Kos , Director of Education and Student Affairs, Delft University of Technology and Nellie van de Griend , Manager Education and Student Affairs, Delft University of Technology |
| 14:45 | <i>Break</i> |
| Chair: Rolf Heusser, Chair of ECA | |
| 15:15 | 'MOOCs and the consequences for external quality assurance' by Stephen Jackson , Director of Reviews, QAA UK |
| 16:00 | Conclusions by Rolf Heusser and Ann Demeulemeester , Vice Chair of NVAO |
| 16u15 | <i>Reception</i> |

3. State of play @TUDelft

Leading platforms grow spectacular ...

Start date: Januari 2012
Founder: S. Thrun
(Stanford)
Budget: \$ 15 million
(Venture Capital)
Company: Commercial
Profile: Professional
Open Source: No

Universities: non
Courses: 30
Students: 1.5 million
Disciplines: ICT

Certificates: Yes
Accreditation: Yes (1)

Start date: April 2012
Founder(s): Koller & Nge
(Stanford)
Budget: \$ 65 miljoen
(Venture Capital)
Company: Commercial
Profile: Academic
Open Source: No

Universities: 107
Courses: 540
Students: 5,5 million
Disciplines: All

Certificates: Yes
Accreditation: Yes (5)

Start date: May 2012
Founder: A. Agarwal
(MIT & Harvard)
Budget: \$ 80 million
(8 Universities)
Company: Non-profit
Profile: Academic Selective
Open Source: Platform

Universities: 29 (+ 3 regions)
Courses: 100
Students: 1,5 million
Disciplines: All

Certification: Yes
Accreditation: Yes (1)

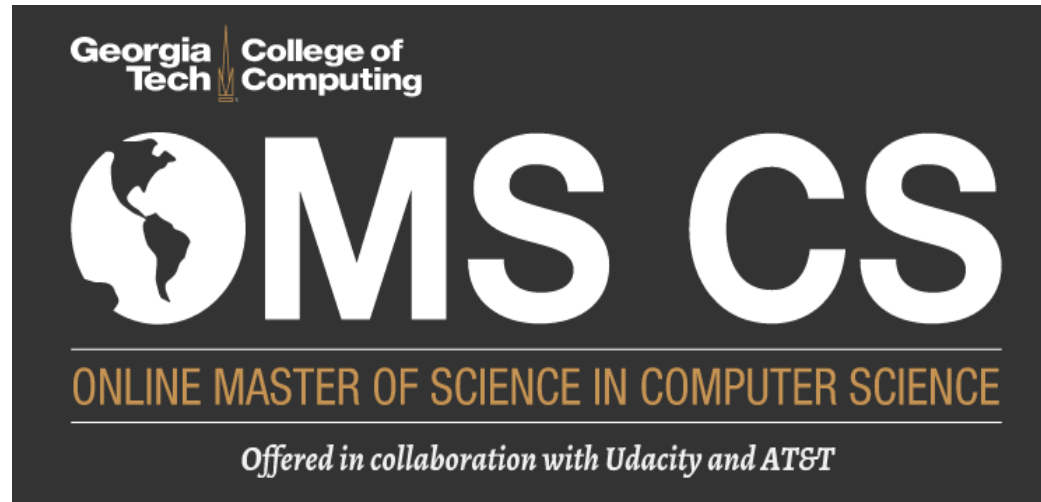

Followed by a surge of new platforms

..exploring potential revenue models...

- **license model:** a share of gross revenue between platform provider and universities offering courses hosted on the platform and used for tuition paid degree programs (Small Private Online Course - SPOC, 'mooc-as-a-book' for blended learning)
- **Administrative fees:** for identity-verification (off- or online proctoring)
- **Recruitment fees:** from corporations for recruiting talented students
- **Premium/Fremium model:** free and upgraded paid versions of the MOOCs and services, resembling the 'freemium' and 'premium' payment models of other internet services
- **Data/advertisement:** monetizing on the digital profiles, behaviour and social characteristics of millions of users of the platform.

... and disruptive pricing strategies.

Georgia Tech College of Computing

OMS CS

ONLINE MASTER OF SCIENCE IN COMPUTER SCIENCE

Offered in collaboration with Udacity and AT&T

- **Accredited** Master Degree Program
- **Price: \$ 6600,- for 2 years** in stead of \$ 40.000 per year
- Number of students: 10.000 in 3 years
- Number of faculty extra: 8 at Georgia Tech (for content production) and undisclosed for Udactiy
- Revenu model: 60% for Georgia Tech, 40% for Udactiy

Mission

Improving quality of both campus & online education

- higher quality courses & didactics (both online & on-campus)
- better progress of students in full-time degree programs (studiesucces)
- better fit with future student expectations

Content

1. Global developments
2. Vision
3. State of play @TUDelft

Open & Online portfolio

- First European partner of edX (april 2013)
- **2 MOOCs** (> 70.000 enrollments)
- **≈ 6.000 Certificates of Completion**
- 3 MOOCs announced for Spring 2014
- Bachelor level
- *No Credits*

- Started 2007
- Sustaining member OCW Consortium
- **More than 120 courses online & 10.000 weblectures recorded**
- Unique daily visitors > 800
- Courses from Bachelor and Master
- *No interaction with faculty*
- *No accredited certificate*

- 19.000 on-campus students
- Top-class research facilities
- World famous university library
- Student projects (dreamhall)
- Active student societies
- Bachelor – Master – Phd
- **2 blended Bachelors**

- **1 full online master (25 courses)**
- **2 modules, 1 minor, 1 master (6 courses)**
- 50 students (30 on-campus)
- Master level
- Full Master Degree / Accredited Course Certificate

Policy Analysis of Multi-Actor Systems

Description:

This course is about solving complex problems. Our favorite problems are not just technically complex but also characterized by the presence of many different social actors that hold conflicting interests, objectives, and perceptions and act strategically to get the best out of a problem situation. This course offers guidance for policy analysts who want to assess if and how their analysis could be of help, based on the premise that problem formulation is the cornerstone in addressing complex problems. After this course, students would have obtained a theoretical insight into different models of decision-making processes, their implications in terms of supporting decision making and the potential roles that analysts; they can make a structured problem analysis in a complex situation, and can lay down their findings in an 'issue paper'; they know how to use a range of different methods and techniques to

Blended learning

2 projects:

- Blended BSc Technology, Policy and Management
- Blended minor Mechanical Engineering

- active learning
- regular study
- stimulating

<http://www.whatism.com/using-blended-learning-to-enhance-education>

Pilots Online Master Courses (offered since September 2013)

3 pilots:

Aerospace Engineering, 6 courses, 13 online participants

Water management, whole master (25 courses), 10 online participants

Engineering & Policy Analysis, 6 courses, 31 campus participants

Set up online courses

- Identical learning objectives & content
- Same admission requirements, also for individual courses
- Exception for certain target groups based on previously acquired competencies (admission committee)
- Same 'quality assurance' conditions

Questions?

Website: [TU Delft – Study - Online](#)

Hypothesis

There is no need for a global accreditation system, as long as we accept international rankings, for example the Times Higher Education Ranking. Being a top 100 institute must be validating enough!

We can easily validate knowledge and skills acquired all over the world, as long as the assessment is done by accredited institutions.

The Quality Assurance of MOOCs

ECA-NVAO Winter Seminar
11 December 2013

Stephen Jackson

Developments in the UK

FutureLearn:

- Owned by the Open University
- A partnership including:
 - 23 UK Universities
 - 3 International partners
 - 3 National Organisations
British Museum; British Council; British Library
- 36 courses currently available

The challenge of MOOCs

‘One of the main challenges raised is the issue of quality assurance: who should look after the quality of OER and MOOCs? MOOC Platforms, HEIs, public authorities, quality assurance and accreditation agencies, none/all of them?’

OECD (2013)

Webinar: open educational resources and MOOCs:
What is the evidence?

The challenge of MOOCs

‘The issue of quality assurance of MOOCs is a big concern for HEIs.the most significant form of quality assurance and enhancement comes from the reflections and informal evaluations of the enthusiasts who put on the courses and the comments from participants using social media’

JISC cetis (2013)

MOOCS and Open Education: Implications for Higher Education

Who are MOOCs for?

- Widening access to HE
- Students in HE
- Vocational Training
- Continuing professional development
- Lifelong learning

Benefits to institutions

- New business model?
- Competitive positioning: Institutional profiling
- Recognition for innovation in teaching and learning
- Educational research and development
- Outreach – promotion of courses

- Risk to reputation drives quality

Quality issues: Design and approval of MOOCs

- Academic planning and development
- Quality control of course materials
- Learning outcomes
- Use of the UK Quality Code
 - Chapter B1: Programme design and approval
 - Chapter B3: Learning and teaching
 - Chapter B6: Assessment of students and accreditation of prior learning

Structures and frameworks

- Duration and completion
- 'Stand alone' courses
- Supplementary learning
- Level of study
- From courses to qualifications

Recognition of achievement

- The award of academic credit
- Recognition of prior learning (RPL)
- Assessment arrangements
 - Forms of assessment
 - Examinations
 - External awards
- Certificates and transcripts
 - Certificates of completion
 - Certificates of achievement
 - Statements of accomplishment
 - Badges

Quality Assurance Agency for Higher Education

s.jackson@qaa.ac.uk

Conclusions
ECA Seminar “MOOCs and QA”
11 December 2013, The Hague:

Rolf Heusser

european consortium for accreditation

Questions prior to ECA/NVAO workshop

- MOOCs: a "campus tsunami" or temporary "fashion hype"?
- MOOCs: more than an exercise of "learning alone" and "solving quizzes"?
- Who stands behind the MOOCs? Who benefits?
- What about quality assurance of MOOCs?
- Etc.

MOOCs: Facts

- Rapid spread in US, Europe
- US platform Coursera: 5,5 Mio registered people, >500 courses
- Europe: > 250 MOOCs until end August 2013
- Expansion driven by technical developments, internationalisation and diversification of HE, funding pressures, etc.

MOOCs: Benefits for HEIs

- Raising new revenues: data on student learning
- Enhancing visibility; Institutional profiling/branding
- Outreach to new learners
- Education of research and development
- Etc.

MOOCs: Benefit for students

- Easy access to educational provisions
- Low/ little cost
- Broaden knowledge in new subject areas
- Deepen professional skills
- Good quality expected
- Etc.

MOOCs: Challenges I

- No MOOCs "on demand"
- Special type of social interaction
- Different teacher qualifications needed
- Validation of exams (who, how?)
- Recognition of learning outcomes/ECTS?
- Social control of platforms?
- Etc.

MOOCs: Challenges II

- Sustainable business model for MOOC platforms?
- Investment of Universities is high, reputational chances and risks
- Intellectual property rights?
- Interrelationship to existing programmes?
- Interrelationship with blended learning, e-learning?
- QA: how and by whom?

Seminar: Conclusions

- MOOCs are a fact and they are spreading rapidly
- Mirror of rapid developments in HE
- MOOCs offer opportunities and risks for HEIs and students
- Challenges for IQA and EQA systems ahead (QA of all forms of post-Traditional education)
- HE is moving and QAAs have to move with it !
