

Conclusions

JOQAR project - Conclusions (I)

- It is possible to simplify the accreditation of JP's: one single accreditation procedure / MULTRA
- It is possible to remove obstacles in the recognition of joint programmes ---> Guidelines for HEIs and for recognition bodies/credential evaluators
- JOQAR methodology shall be promoted in Europe and overseas as a tool which facilitates international recognition of qualifications

JOQAR project - Conclusions (II)

What to do next:

- Create inventory of perceived problems in QA and recognition of JP's and list possible solutions
- Transfer these messages to politicians and governments
- Establish an European coordination point for joint programmes, providing information and support for HEIs, QAAs and credential evaluators
